Agri-environmental Governance as an Assemblage

Multiplicity, Power, and Transformation

Edited by **Jérémie Forney**, University of Neuchatel, Switzerland, **Chris Rosin**, Lincoln University, New Zealand and **Hugh Campbell**, University of Otago, New Zealand

Series: Earthscan Food and Agriculture

Agri-environmental governance has become a highly complex assemblage of actors and instruments, with multiple interrelations. This book addresses this complexity, challenging research both at the theoretical and methodological levels. It draws on multiple theoretical and methodological insights, drawing on case studies from Asia, Europe and the Americas and develops a renewed approach of AEG practices as assemblages.
